"What happened in 1902 when Germany coveted Venezuelan trade." the senator asked. The President mobilized our fleet in Caribbean waters under Admiral Dewey, fresh from his victory at Manila, and before that mobilization was complete the danger passed like a troubled dream. Why? Because at that time our fleet was three times as great as the German fleetmot because of good will or treaties. We are not in such a position today. Our position now is reversed in respect to Germany. If like conditions should arise again today we would see how vain our protest.

DANGER TO PUBLIC HEALTH

Special Warning of Vital Importance at This Time---How Lives May Be Saved

Public warning is given to avoid the danger from poisonous drugs and nerve-destroying stimulants contained in so many so-called "Cough Cures." Look on the label of these preparations and you will see that they contain morphine, heroin, codeine, chloroform and other dangerous narcotics which should only be taken under a doctor's orders. You are safe when you take Father John's Medicine because it is pure and wholesome, free from dangerous drugs and alcohol and has more than fifty years' success in the treatment of colds and throat and lung troubles.

The Secretary of War has approved dans for sending the first squadron c the 12th Cavalry and the 2d Battalion of the 4th Field Artillery to the Panama Canal Zone. This change in the stations of troops is carrying out in part the plans for the garrisoning of the Panama canal which were recommended by the general staff in 1912. As both the 12th Cavalry and the 4th Field Artillery are stationed on the Mexican border, it probably will be necessary to send some additional troops from other points of the United States to Texas and the border.
